IMTIYAZ KHAN

Python Developer | AI & Machine Learning

imtiyazkhan6685@gmail.com +91 90490 46685 Pune, Maharashtra Linkedin

SUMMARY

Computer Science & Engineering graduate specializing in **AI/ML**, with hands-on experience in **Python, SQL, data analysis, and machine learning**. Skilled in troubleshooting, debugging, problem-solving, data preparation, and application support. Familiar with issue resolution, system performance analysis, technical documentation, and cross-functional collaboration. Interested in Application Support, Python Development, and AI & Data Solutions roles.

SKILLS

Python | SQL | DSA | Pandas | NumPy | EDA | Machine Learning | Scikit-learn | Django | Flask | Power BI | Feature Engineering | Linear Regression | Random Forest

PROJECTS

Sentiment Analysis Tool, *NLP / BERT*

- Built an end-to-end **NLP text-classification pipeline** using **Python** and BERT to classify product reviews as positive, negative, or neutral.
- Implemented **text preprocessing, tokenization, model fine-tuning, and debugging** using **Hugging Face Transformers**.
- Developed and deployed a practical **Streamlit application**, integrating **Scikit-learn** for data processing and evaluation.

Technologies: Python, BERT, Hugging Face Transformers, NLP, Scikit-learn, Streamlit.

House Price Prediction, *Machine Learning*

- Developed **Python-based regression models** using Linear Regression and Random Forest for housing price prediction.
- Performed **data analysis, feature engineering, and troubleshooting**.
- Deployed the trained model as a **REST API using Flask**, enabling real-time predictions through **HTTP requests**.
- Worked with **Python, SQL, Scikit-learn, Flask, Streamlit, Pandas, and NumPy**, with exposure to **application deployment and debugging**.

EDUCATION

Theem College of Engineering, University of Mumbai,

Bachelor of Engineering – Computer Science & Engineering (AI & ML)

- Completed B.E. with specialization in Artificial Intelligence and Machine Learning.
- Coursework and practical included AI, machine learning algorithms, data structures, and analytical problem solving.

CERTIFICATION

Introduction to Artificial Intelligence (July 2026 Foundational knowledge of AI concepts, machine learning principles, and practical applications.)
